

features

- ✓ **Large Display** - Quickly read critical appropriate data from the large clear display with fewer key presses.
- ✓ **Colour Coded Set Loading** - Safe and intuitive set-up with colour coded IV infusion set loading.
- ✓ **Door Removal** - With the use of a tool, the door can be safely removed in seconds for cleaning and maintenance.
- ✓ **Air-in-line Sensor** - Air-in-line sensor provides both single bubble and accumulated bubble protection.
- ✓ **Alarm & Warning Beacon** - An immediate identification of the infusion pump requiring attention.
- ✓ **User Friendly Interface** - Featuring the same intuitive user interface as the Alaris™ Syringe Pumps, the GP Plus volumetric pump requires minimal additional training.

overview

Acute and sub-acute applications require a simple and easy to use volumetric pump. Our Alaris® GP volumetric pump provides a versatile and flexible platform for infusion therapy which is suitable across a broad range of applications.

The Alaris® GP Volumetric pump offers a range of features suited to drug therapy, blood transfusions and parenteral feeding: including a large, clear specialty sets.

techspecs

Infusion Rate Range

0.1 - 1200ml/h (with titration if enabled)

VTBI

Range: Primary - 1ml to 9999ml

End Actions: Stop, KVO and continue

Infusion Rate Range

0.1 - 1200ml/h (with titration if enabled)

Volumetric Accuracy

+/- 5% (nominal)

Hands on and Hands Free Bolus

Bolus Rate 10 - 1200 ml/h

Bolus Volume 0.1 - 100 ml

Display

Mono (240x240 pixels)

KVO Rates

0.1-20ml/h or set infusion rate if lower
