- ✔ Logging interval 1 minute..2 hours. Start Manual/Auto and temperature condition.

overview

TempSen's brand new Tempod Bluetooth temperature data logger series employs Bluetooth Low Energy technology, it brings customers the unparalleled advantages to remotely access data logger through wireless connection, customers could program, download, start and stop data logger outside of the package with few finger-taps on your smart device, and then your goods will be under the thorough monitoring across transportation. There are four devices available with different temperature ranges from -20°C .. 70°C (internal sensor), -50°C..70°C, -100°C..70°C and -200°C..70°C with external sensor.

techspecs

Type

Multi-use

Sensor

Temperature: Exernal NTC sensor, 1m

Memory Capacity

28800 readings

Measurement Range

-200°C .. +70°C

Accuracy

±0.3°C (-20°C...20°C) /±0.5°C (other range)

Resolution

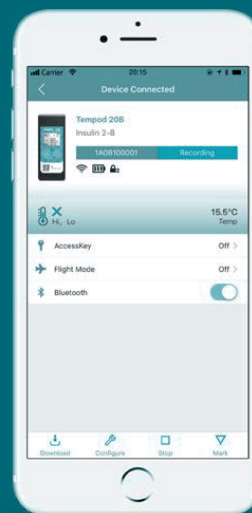

0.1°C / °F

Battery

3.0V lithium battery, user replaceable

Battery Life

12 months
