

NELUMBOX

Portable cooling

features

- ✓ **Fully automated process at the push of a button**
No process validation, no cold chain warehousing
GDP+ compliant at the patients home, no training needed
Instant cooling and remote pre-conditioning
- ✓ **Environment friendly and sustainable solution**
Multiple usage and rechargeable batteries
Most energy efficient solution for the last mile
Fully recyclable, no single-use waste
- ✓ **Fully digital and connected real-time tracking solution**
Built-in sensors monitoring all relevant parameters
Real-time tracking in over 170 countries
Automatic reporting and alert functions
- ✓ Power-independent battery-runtime up to 48h
- ✓ Personalized access (RFID-lock)
- ✓ **Live-Tracking**: temperature, humidity, access, motion, location
- ✓ Data-Access via web-browser or API's
- ✓ Silent cooling and remote pre-conditioning

overview

With the NelumBox, you can make the care of your patients much more manageable. You no longer have to rely on an external specialist logistician to ensure that the medication reaches the patient on time. Use NelumBox to transport your patients medicines carefree.

Every third newly approved Rx drug requires a cold-chain - and the trend is rising. Transport the drugs to be administered to the patients homes yourself. Prevent errors caused by the transport and packaging of external logisticians. NelumBox not only saves you time and money but also increases flexibility for your patients and nursing staff.

techspecs

Power supply

110-240 V AC 12V DC

Instant active cooling & heating

2-8°C; 15-25°C; 37-55°C

Variable temperature ranges

0°C and 80°C

Max capacity

5 Liter

Dimensions outer

350 x 350 x 220 mm

Dimensions inner

205 x 165 x 125 mm

Weight

9.5 Kg
