

# Infusomat® Space

## Volumetric Infusion

### overview

The Infusomat® Space pump is the volumetric infusion pump solution to configure customized, tailor-made solutions as individual pumps, small therapy units, or a complex infusion system.

The small, light and intuitive configuration of the pump provides a userfriendly solution to complex therapies, integrating all clinical areas into one system.

The Infusomat® Space volumetric infusion pump system includes dedicated administration sets and pump accessories.

### features

- ✓ Light weight pump (1.4kg) and reliable battery duration of 8hours on a 25 ml/h rate
- ✓ Therapy Profiles available : Dose Rate Calculation, Dose Over Time, Ramp and Taper Mode, Program Mode, Intermittent Mode, PCA, TCI, TIVA, KVO and Piggyback function
- ✓ Set and pump based Anti Free-Flow mechanism, protecting against free flow
- ✓ Drug Library with capacity to up to 1200 drug names, including therapy data, information and up to 10 concentrations per drug to be stored in 30 different categories. Drug information can be subdivided in 50 categories and up to 16 Patient Profiles.

### techspecs
